PHP  
BOOTSTRAP  
GIT

LARAVEL  
TAILWIND  
JAVASCRIPT

MYSQL  
VUE.JS  
(NEO) VIM

SASS  
HTML / CSS  
ADOBE XD

## HARD SKILLS

### FAST LEARNER

I learn a lot, fail a lot, and move on fast. Professional or personal things, I always seek something new and interesting things that always matter.

### PLANNING ENTHUSIAST

Think twice, code once. I prefer to keep planning and keep things organize and tidy.

### CRITICAL THINKER

One of my weaknesses and strength. I think hard and fail smart.

### PRODUCTIVITY

We always seek to be productive. I use technique like pomodoro and meditation to be always aware on how I consume my time, energy and life.

### TEAM PLAYER

I am pretty good at collaboration. I always value my teammate thoughts and share what I genuinely think about certain topics.

### INDEPENDENT

Since I am a self-thought developer. I can always do things independently.

### 80-90 WPM

I always harness my typing skills. My goal is to reach 120wpm by the end of the year. If you are interested, my Typeracer profile is "joshua\_afk" :)
